

APPAREL SHELF™

Apparel-Shelf™ is a revolutionary new product that offers a seamless solution for storing light-weight apparel products for the retail industry. Our patented design provides a smooth surface with no sharp edges to snag fabrics or plastic. The front bullnose piece allows for easily-identifiable labeling while the rear, upturned waterfall keeps product from falling off the back. All Apparel-Shelf™ decks are custom made and designed to hold a minimum of 200 lbs. UDL.
